

**Miltex**  
Redefining Excellence **Surgical Instruments**

Choose from two grades to match your application and budget; both feature a lifetime guarantee

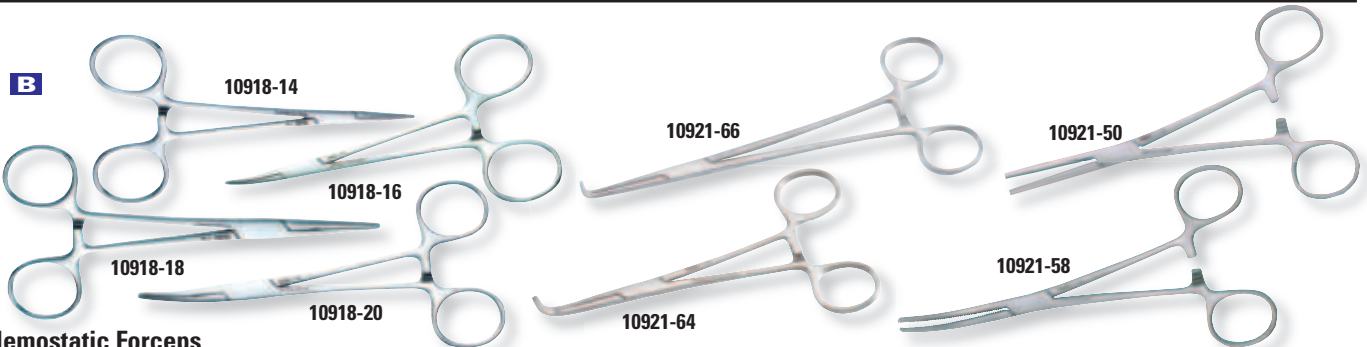

**Dissection-grade instruments**, Vantage® brand by Miltex, are manufactured from stainless steel; hardened, tempered, and polished for a high-priced finish without the added cost. These instruments are well-suited for less critical applications with tight budgets such as necropsies.

**Surgical-grade instruments** feature the highest quality stainless steel, crafted to the most exacting standards, to meet the most demanding needs. Precision cutting and holding surfaces, ratcheting lock mechanisms, and nonglare finish are ideal for critical in-vivo procedures or surgical suite work.

**A Scissors**

Type	Description	Length	Dissecting-grade		Surgical-grade
