

INNOCAL®

INNOVATIVE CALIBRATION SOLUTIONS

Specialists in Instrument Calibration and Repair

Trust InnoCal®, a division of Cole-Parmer, to satisfy your calibration and equipment repair needs. With over a decade of service, we've helped thousands of customers meet ISO, FDA, EPA, GLPs/cGMPs and other quality standards.

InnoCal services are easy to use. If you are purchasing an instrument from Cole-Parmer, simply have InnoCal calibrate and certify the item before it is shipped. Or arrange regularly scheduled maintenance and calibration with one phone call to **866-InnoCal (866-466-6225)**. When your instrument reaches our lab, it is cleaned, calibrated, certified, and returned quickly to keep your business running smoothly.

Calibration Traceable to NIST

Our commitment to quality and to the science of metrology is demonstrated by our utilization of highly trained, experienced metrologists using some of the most advanced methods and standards available. We provide you with the documentation you need to meet your most stringent quality requirements for the control of inspection, measuring, and test equipment. We will certify your new or existing instrument traceable to NIST standards.

Calibration Report with test data, including:

- description and identification of the item
- condition of the item as received
- identification of calibration procedure
- calibration date
- as found/as left test data
- electronic signature of technician
- statement of estimated uncertainty
- test uncertainties (TURs)
- list of standards used to perform calibration (including their calibration dates)

With today's high quality standards such as ISO 9000, calibration is becoming increasingly important. Traceability is not a timeless condition. It must be verified and maintained over the life of the calibration to ensure the highest accuracy possible. When you have your calibration done by InnoCal, we will send you an automatic reminder when it is time to recalibrate your instrument.

When Results Matter, Choose InnoCal

Conformity*

ANSI/ISO/IEC 17025:2005 accredited
 NIST Handbook 150, 2000 Edition
 ANSI/NCSL Z540-2-1997
 NIST Technical Note 1297
 ISO 9000:2000

*Please check our scope of accreditation for any limitations.

Excellent Value

Get quality at a fair price. Our InnoCal NIST-traceable reports offer extensive test data on a broad range of measurement parameters without breaking the bank!

Reliable Support

Trust in our free diagnostic support and troubleshooting advice. Our factory-trained metrologists and technicians are armed with years of experience and extensive technical data.

Convenient Reminders

It's so easy to keep your instruments functioning properly. Based on your requirements, InnoCal will send you a reminder when it's time to re-certify or service your instrument.

Repair Service

Keep your valuable equipment up and running with scheduled preventive maintenance and repair. Our experienced service technicians are factory trained on instrumentation theory and operation, and stay up to date on the latest product modifications. We provide factory authorized service for both laboratory and industrial process instruments. Get the best performance out of your equipment by keeping it properly maintained and repaired.
